

# AT Kearney: Chemicals Executive M&A Report

Luncheon/Webcast of November 6, 2014 at the Penn Club

## Abstract

- What is propelling the chemical M&A space?
- How are activist investors shaping the future of the industry?
- What trends are key to deal completion?

The current deal pipeline is in excellent shape fueled by large scale portfolio restructurings, which are often triggered by activist investors as in the case of Dow, DuPont and Ashland.

A.T. Kearney's Chemicals Executive M&A Report provides a comprehensive review of deal activity levels, key trends and outlooks. The report is based on analysis of all completed deals in the chemicals industry in the period 2001-2013 and an update on 2014 based on survey of executives at leading chemicals companies and investment banks.

Join us on November 6 to hear the unique vision and insights of Oliver Zeranski on the illuminating report on mergers and acquisitions in the chemical space.

## Biography

**SPEAKER: Oliver Zeranski**, is a Principal at A. T. Kearney and a member of the firm's global Chemicals practice. He works with clients to improve performance and define and implement strategic objectives within their companies. His focus is serving clients in the Chemicals industry and in adjacent markets such as Consumer Products. Recent client work of the practice covers a diverse set of topics ranging from due diligence support and M&A strategy, developing business unit strategy to large-scale transformation efforts. Oliver received an MBA from ebs European Business School and an MS-MIS degree from the University of Pittsburgh.
